

Additional Features:

- Injection-molded HDPE construction delivers long-lasting durability and consistent performance.
- Patent-pending all-plastic hinge eliminates metal pins for improved safety and recyclability.
- Reinforced bumper system and ergonomic handles enhance handling and extend product life.
- Unique nesting design with added load-bearing nesting ribs improves cube efficiency and reduce bottom deformation while nesting.
- Produced in a fully automated environment for superior quality, reliability and faster fulfillment.
- Multiple configuration options: open/closed/drain-hole bottoms, recycled content, and any color.
- Tracking and identification features available, including barcodes, license plates, RFID, label areas, and custom hot stamps.
