FOR BAKERY & FOOD

GET TO KNOW MONOFLO

Packaging that outperforms. Partnership that over-delivers. Monoflo delivers injection-molded packaging solutions that help businesses thrive.

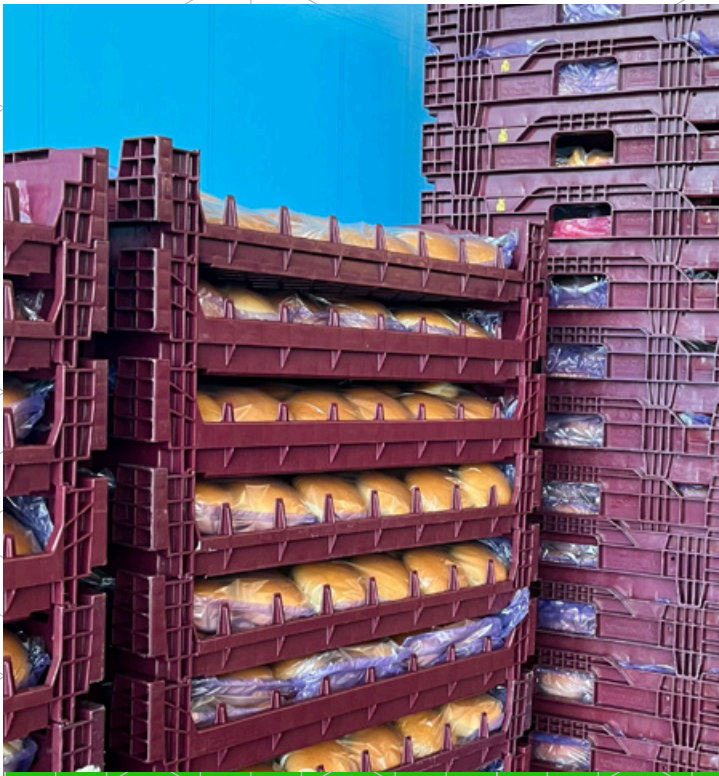

At Monoflo International, we design, engineer and manufacture reusable injection-molded packaging like totes, containers, trays and pallets for some of the most recognized brands in the world. But what makes us an industry-leading supplier of reusable packaging isn't manufacturing excellence alone; it's our commitment to building trusted partnerships that position customers for success. With an excellence-obsessed mindset, a relentless focus on innovation and a people-centered approach to doing business, we deliver packaging solutions that empower customers to streamline supply chains, embrace sustainability and achieve their goals with confidence.

We're redefining excellence in reusable packaging with cutting-edge manufacturing processes and innovative injection-molded solutions that maximize value in modern supply chains. Serving industries from automotive to eCommerce, we combine advanced engineering and technology with a personal commitment to customer relationships to ensure every solution delivers unmatched quality, reliability and performance.

Food Processing, Storage & Transport Solutions to Optimize Your Supply Chain

Improve inventory management, streamline handling and protect your bottom line with bakery trays, dollies and pallets for food and bakery.

Whether you need more precise handling in automated food production or optimal cube efficiency during distribution, Monoflo delivers innovative injection-molded packaging solutions to meet your food and bakery challenges. Reduce cost, minimize waste and track products to ensure food safety with the industry-leaders in high-performance reusable packaging.

29x26

Bakery Dollies

Smooth Mobility | Equipped with non-marking casters for effortless roll-on/roll-off handling.

Precision Fit | Designed to pair seamlessly with our bakery trays for improved load stability and operational efficiency.

Long-Lasting Construction | Injection-molded for long-lasting performance, even under heavy loads in demanding environments.

Customizable Options | Hot stamping and color customization offer enhanced inventory control and brand consistency.

Available Footprints and Heights (inches)

24x44.5x25	48x44.5x27
32x30x25	48x44.5x33
32x30x34	48x44.5x34
48x40x34	48x44.5x42
48x40x39	48x44.5x50
48x44.5x25	

Bulk Containers

Durable Build | Reinforced corners, U-channel ribbing, and a market-leading heat-welded base provide enhanced strength-to-weight performance and durability.

Flex-Hinge Design | All-plastic construction with no fiberglass or metal makes assembly, disassembly and field repairs safe and easy.

Easy-Handling Features | Optional access doors, 4-way forklift and pallet jack channels and bottom runners for conveyor systems streamlines handling and transport.

Advanced Tracking Options | Customizable options, like bar codes, license plates and RFID, ensure seamless integration with automated tracking systems.

Available Footprints (inches)

Rackable Pallets:	Nestable Pallets:
37x37	30x42
48x40	1200x1000mm
	48x40
	48x45

Pallets

Exceptional Load Capacity | We engineer our rackable pallets to support dynamic loads up to 4,000 lbs. and edge rack capacities as high as 2,200 lbs. for demanding warehouse environments.

Optimized Loading and Unloading | Features four-way fork access points with chamfered runners for quick loading and unloading and optional deck lips to enhance load stability.

Superior Durability | Constructed with injection-molded, FDA and USDA-compliant plastic to withstand the rigors of daily forklift handling and long-term use.

Range of Tracking Options | From embedded RFID tags to barcodes to license plates, we offer advanced tracking options for seamless inventory management.

Why Choose Monoflo Bakery Products?

Bakery trays and dollies from Monoflo are designed to meet the unique demands of bakery operations, from warehouse distribution to direct-to-store delivery. Our automation-ready solutions protect delicate baked goods and improve handling with precision-fit designs and track-and-trace technology. With over 50 years of experience and millions of units in use across North America, we deliver tailored, reusable products to ensure your bakery operations run smoothly.

- Optimize logistics with durable, space-saving trays designed for efficient stacking and transport.
- Improve supply chain efficiency with reusable, 100% recyclable trays and dollies that reduce waste and support sustainability goals.
- Respond quickly to your changing needs with our fast turnaround times for the bakery trays and dollies that are essential for your operations.

More reasons Monoflo's offerings make sense for food and bakery customers...

Precision-Driven Excellence | Our injection-molded bakery trays and dollies are precision engineered for reliable performance and stability in demanding environments.

Built for Efficiency | From space-saving trays to smooth-rolling dollies, we design our reusable packaging solutions to streamline handling and keep your operations running smoothly.

Tailored For You | In our highly automated facilities, we can quickly customize products with RFID tracking, hot stamping, brand colors and more to enhance inventory control and brand visibility.

Sustainable Buyback Program | We repurchase our bakery trays and dollies at the end of their lifecycle, reprocessing them into new products to reduce waste and close the loop in your supply chain.

Customization Is Always An Option

We make custom trays, containers and pallets all the time. If you don't see exactly what you need in our existing product line, we will gladly engineer, design and manufacture precisely what you need for your unique system.
